PROFESSIONAL SUMMARY

B.Tech Computer Science student (AI & Data Science) with hands-on experience in HTML, CSS, JavaScript, React and Tailwind CSS. Experienced in building responsive web pages, reusable UI components and interactive interfaces, with projects managed and deployed through Git and GitHub. Combines frontend skills with Python, SQL and data analysis to build clean, user-friendly web applications.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS

Web Development: Responsive Design, Reusable UI Components, Interactive Interfaces

Tools: VS Code, Git, GitHub

Data & Backend: Python, SQL, MySQL, Pandas, Streamlit, Power BI, Excel

PROJECTS

Data Analyst Portfolio

HTML | CSS | JavaScript | Git | GitHub

- Built a personal portfolio website to showcase technical projects, skills and project documentation.
- Created structured, responsive page layouts presenting multiple projects and their details.
- Developed interactive website components using HTML, CSS and JavaScript.
- Managed the project with Git and GitHub and deployed it for online access.

Jewellery & Retail Management Application

React | JavaScript | Tailwind CSS

- Designed a web application to manage jewellery, clothing, stationery and gifting items, stock and sales.
- Built UI components for product management, inventory tracking, sales recording and low-stock monitoring.
- Used React and Tailwind CSS to create reusable components and responsive application layouts.
- Applied AI-assisted development workflows to prototype and improve frontend interfaces.

India Job Market Intelligence

Python | Streamlit | Pandas

- Developed an interactive web app to explore Indian job-market data by role, skill, salary, experience and location.
- Implemented interactive filters and data-driven views for exploring job-market information.
- Designed a structured interface to present analytical results in an accessible format.
- Cleaned and prepared the dataset using Python and pandas before integrating it into the app.

Employee Management SQL

MySQL | SQL

- Designed and implemented a relational employee management database in MySQL.
- Created tables, inserted records and queried structured data using SQL.
- Applied filtering, sorting, logical operators, DISTINCT, LIMIT and aggregate functions to retrieve data.

EDUCATION

Bachelor of Technology — Computer Science & Engineering (AI & Data Science)

CGPA: 8.27 / 10

Kakinada Institute of Engineering and Technology (KIET), JNTUK, Andhra Pradesh

Expected Graduation: 2027

TRAINING & PROGRAMS

- AI Adoption Program — KIET
- Microsoft AICW Training
- Prompt Engineering
- Frontend Development — HTML, CSS and JavaScript
- NCC Training
